

## **Projects and Services**

- Labor rate \$50/hr
- ½ hr minimum
- You will be required to cover the cost of materials, consumables, and any specialty tools required for the completion of your specific job.
- Your quote can vary +/- 30%, as can the expected date of completion.

## **Getting a Quote**

Please collect all the information you can about your project including a general description, pictures, drawings, explanations, budget, material/vendor preference, and contact information.

When you have everything ready, send us an email with the compiled information or complete the form on our website. If you prefer to meet in person you may call, email, or stop by to request a meeting. Once we understand all of the details, we will consider materials, labor, and 3rd party or specialty service companies for price and lead time before sending a quote.

Your quote is like a roadmap. It will tell you if any other companies will be involved, your estimated materials cost, and the expected completion date. It will also list terms for deposits, fee schedules, and any specific terms or conditions.

Our expert team can identify any variances to the estimate as soon as they occur. Through our continuous reviews and constant communication you will be able to intervene when needed which keeps the project both on time and within budget.

**The Inventor Center is a private non-profit. We retain our right to decline, refuse, or discontinue any solicitation, work order, or agreement whether written, conceptual, implied, construed, or signed. We may do so at any time with or without giving a reason. If a given reason is situational and that situation is resolved, we are under no obligation to resume the related project.**
